

## ROOT TO QUIT CABINET

Will Resign as Secretary of War in January.

TAFT NAMED AS HIS SUCCESSOR.

Department Has Settled Many Matters of Importance—Family Reasons Cause of Change—Root to Resume Law Practice.

Oyster Bay, N. Y., Aug. 12.—Elihu Root will resign as secretary of war, the resignation to take effect about the 1st of next January. He will be succeeded, unless present plans miscarry, by Judge William H. Taft, now governor of the Philippines.

It has been known for some time that Secretary Root intended to retire, but he did not wish to leave the department until the general staff bill was in operation and other matters were well under way. It is understood that the matter of his successor has been discussed and while not official, it is thought the position will be tendered to Governor Taft. While Secretary Root is in London he will remain in communication with the war department, and matters pertaining to staff and other matters will be referred to him. If the sittings of the Alaskan commission extend beyond Dec. 1, it is likely that the secretary's resignation will be accepted at that time. It is believed here that there will be a great deal of delay in consideration of the Alaskan boundary case and that the United States commissioners may be detained in London several months. Secretary Root's desire to leave public life is based largely on personal grounds. His family does not like the life in Washington, and the secretary also desires to return to his law practice in New York. Questions pending in the war department relative, principally, to the islands and the establishment of a government in Cuba have been accomplished during Secretary Root's administration. The reorganization of the army under the general staff plan is now under way and the secretary feels that he has accomplished the work that he was called on to do when he became secretary of war.

That Governor Taft will be Mr. Root's successor there can be little doubt. He is familiar with many of the problems which the secretary of war will have to meet and solve, he is a warm personal friend of the president, who has an abiding confidence in him, and it is understood that he would welcome the change involved. Of course his appointment as secretary of war would necessitate a new president for the Philippine commission. In all probability General Luke Wright would succeed to the presidency of the commission. Some other changes also would be involved in the appointment of Governor Taft as secretary of war, but nothing definite concerning them can be said at this time.

CITIZENS AND MINERS JAILED.

Protective League Members and Their Prosecutors Are Both Arrested.

Georgetown, Colo., Aug. 12.—The warrants issued against members of the Idaho Springs Citizens' Protective League by order of Judge Frank Owens of the district court, upon application of the attorneys for the Western Federation of Miners, were served upon forty-seven members of the league at Idaho Springs and the persons served were arrested and brought before Judge Owens in this city. After a brief hearing they were placed under bonds to keep the peace and notified to hold themselves in readiness to appear before Judge Owens on notice. These warrants were issued as a result of the expulsion from Idaho Springs of a number of union miners after the blowing up of the building of the Sun and Moon mine recently. Among those who answered to writs were the mayor of Idaho Springs, members of the council, the city attorney, the city marshal, the postmaster, presidents of banks and leading merchants and mine operators.

Fourteen of the eighteen miners driven from Idaho Springs returned to that city from Denver, having learned of the injunction issued by Judge Owens in their behalf. Five of the men were arrested immediately, charged with complicity in the blowing up of the Sun and Moon transformer house. They were placed in jail, where they still remain.

Another development in the labor troubles was the filing of suits against twelve members of the citizens' league by the miners who were transported. In all twelve suits were filed, each asking for damages in the sum of \$10,000.

St. Louis, Aug. 12.—Suits were filed in the circuit court by Attorney Douglas Robert of Butte, Mont., representing Roy Tuttle of that city, to recover \$1,850 alleged to have been invested with the Rialto Grain and Securities company of St. Louis, and upon order of the court, deputy sheriffs attached and took possession of the offices of the concern. The Rialto Grain and Securities company was organized last year, with a capital stock of \$25,000. Attorney T. B. Harlan, representing the company, says its resources amount to \$70,000 and that claim is filed against the company aggregate \$15,000, all of which have been paid. President Hugh C. Fort Plain, N. Y., Aug. 12.—Henry F. Spaulding, an enthusiastic automobilist from West Orange, N. J., en route to Chicago, rode to his death four miles east of this village. He was on the tow path of the Erie canal. Owing to the muddy condition of the tow path and while turning out for a line man's rig, his automobile swerved more than he intended and man and machine plunged into the water. Two linemen rushed to aid Spaulding, but in their excitement let go entirely of a rope, one end of which they had thrown to the drowning man. The body was recovered badly entangled in the rope which had been thrown him.

The speakers said that in many instances the mail cars are so rotten that they collapse like eggshells as soon as they leave the track.

Boston, Aug. 12.—In a circular issued by the police giving a description of Willard S. Allen, absconding treasurer of the Preachers' Aid Society of the New England Methodist conference, the amount of the embezzlement is given as \$110,000, a figure considerably in excess of former estimates. Following the clue furnished by Lewis S. Cates, who reported having seen Allen at Rochester on Thursday, the Boston police believe they are squarely on the track of the fugitive.

In the boat was the young woman's sash and a man's sweater. It is thought that they have been drowned.

A wagonload of convict-made brooms was driven through the prison gates and it is suspected Wardlow hid himself under the wagonbed, riding on the running gear. REVOLUTION IS WIDESPREAD.

Macedonian Committee Denies Reports of Alleged Atrocities Committed by Bulgarians—Insurgents Blow Up a Bridge.

Sofia, Aug. 12.—The representatives of the revolutionary committee announce that the revolution broke out in the vilayet of Adrianople on Monday. Adrianople forms the seventh revolutionary district, with Chief Ghirdjikoff and Captains Ikonomoff and Madjaroff in command. The representatives of the committee also publish a contradiction of the alleged atrocities committed by the Bulgarians and accuse the Turks of attempting to prepare the mind of Europe for the eventual massacre of innocent Christians. General Tzoucheff, president of the Macedonian committee, has addressed an appeal to his adherents to assist the insurgents in Macedonia even by revolutionary means.

London, Aug. 12.—A dispatch to the Times, dated Sofia, Bulgaria, says that the towns of Krushevo and Kritchovo are still in the hands of the insurgents. Palace Officials Alarmed.

London, Aug. 12.—The Times prints a dispatch from Constantinople which says that the palace officials there are distracted because of the continual receipt of bad news and the necessity of dispatching fresh troops. Bulgarian outrages are of daily occurrence, accompanied by acts of cruelty equal to the worst deeds ever attributed to the Turks. It is rumored here that the Turkish troops in Macedonia have become so demoralized by their failure to receive pay that hundreds of them are deserting and selling their rifles to insurgents in order to obtain provisions.

CONVICT HUNT ABANDONED.

Sheriff Gives Up Chase of Folsom Fugitives Whose Trail Is Lost.

Sacramento, Cal., Aug. 12.—Sheriff Reese has practically abandoned the hunt for the escaped convicts known to have been in this city last Friday, including Ray Fahey, a notorious highwayman. Sheriff Reese feels it is useless to further pursue an organized chase for the escapes. The five convicts fleeing through the Corral Flat country are believed to have escaped to the Devil's Basin region, a rocky and heavily timbered section, affording good shelter and protection.

Pope Has Fainting Spell.

Rome, Aug. 12.—A week has elapsed since the election of Pius X and he has been already overcome by the unaccustomed strain of his pontifical duties. He fainted while at mass. His collapse is considered to be due to heart weakness aggravated by fatigue. It constitutes the first victory of his entourage. Even though he disappointed some people, they urge him not to concede audiences to all comers and to render himself less accessible. Dr. Lepponi recommended the pope to take a complete rest. He has ordered all audiences postponed.

THEY COME FOR HUNDREDS

OF MILES TO SEE HER.

Nothing so Wonderful in the

Days of Specialism.

Dr. Caldwell.

The success of Dr. Caldwell is attributed to her special study of specialism. Dr. Caldwell, student, philanthropist and physician of wide reputation, having given her entire time and practice to a line of special diseases, which enables her from long experience in handling these troubles to certainly come forward as a master specialist. Her faculty for mastering disease, her ability to diagnose, and her plan of treatment is not excelled by few other physicians. Dr. Caldwell, although a young woman in life, a plain woman, and one who is used to the ups and downs in life, puts herself on a level with her patients and does not pretend to practice the old plan of fashion, which is to look wise and say nothing. She knows disease; she knows where to look for disease, and the spot where located, and most of all she knows from experience, from what she has done in the past, she can certainly do for others in the future. It is said by Dr. Caldwell's friends that she can diagnose a disease of any patient without asking them a single question, that being the case, she is not likely to doctor them for the wrong ailment; she will not take an incurable disease and lead the patient to believe that she can cure them when there is really no hope for them. Her business is large and she has plenty to do, even at times, more than she can do, without taking incurable diseases and deceiving her patients. Dr. Caldwell is a graduate from one of the best schools in America. She has practiced her profession in some of the principal hospitals in this country. Her specialty comprises that class of diseases which the ordinary home doctor fails to cure, such as female diseases, heart diseases, diseases of children and the many special diseases of hidden nature. Her practice is mostly among the plain, hard working people who are unable to come to her city office for treatment; she is reasonable in her charges and very lenient with those who are not able to pay. She is charitable, and it is said has never been known to refuse to treat a patient who is worthy and in need. A number of the important cases that we hereby take the liberty to publish, which might be of interest to some who wish to know more of Dr. Caldwell's great work:

## CATARRH A COMMON COMPLAINT.

Catarrh begins with a stubborn cold in the head, inflammation or soreness of the membrane or lining of the nose, discharge of mucus matter, headaches, neuralgia and difficult breathing, and even in this early stage is almost intolerable. But when the filthy secretions begin to drop back into the throat and stomach, and the blood becomes polluted and the system contaminated by the catarrhal poison, then the sufferer begins to realize what a disgusting and sickening disease Catarrh is. It affects the kidneys and stomach as well as other parts of the body. It is a constitutional disease and as inhaling mixtures, salves, ointments, etc., are never more than palliative or helpful, even in the beginning of Catarrh, what can you expect from such treatment when it becomes chronic and the whole system affected? Only such a remedy as S. S. S. can reach this obstinate, deep-seated disease and purge the blood of the catarrhal poison. S. S. S. purifies and builds up the diseased blood, and the inflamed membranes are healed and the excessive secretion of mucus ceases when new, rich blood is coming to the diseased parts, and a permanent cure is the result.

S. S. S. is guaranteed purely vegetable and a reliable remedy for Catarrh in all stages. Write if in need of medical advice; this will cost you nothing.
